49100

Product Name

Citracce Hospital Germicide

Active Ingredient

ortho-Phenylphenol

Batch Number

Said it was faded and too small to read

CIRCUMSTANCE INFORMATION

Label Followed

☐ YES ☐ NO

How Exposed? (Residual, direct use, user, by-stander etc.)

User inhalation.

Situation (household use, workplace, patient)

Used Citrace in the past.

Recently has had a lot of foul smelling patients. Sprayed hall way / office, and surrounding areas. Since smell was so bad she "just kept spraying". She admitted she sprayed way to much. Told her our tox. data shows the product is safe. Suggested she see a doctor due to worsening symptoms + burning in chest. Also had very noticable loss of voice. Followed up with [redacted] the next week and she said she saw a nurse practitioner she works with and he said everything seemed fine.

Use Site (medical setting, home, clinic, etc.)

General clinic

with nurse practitioners

Ventilation

General room.

Personal privacy information
